

Notebook 70W DC Power Adapter

Light, lean, and packed with power - the Kensington Notebook 70W DC Power Adapter powers and charges the road warrior's essentials. Its slim-line profile is up to 60% smaller* and 70% lighter than comparable chargers, so it virtually disappears on the road and in the briefcase. Yet, with 70 watts of power and multiple charger tips, it can power virtually any notebook computer from any auto or airline power supply.

- **Thin and light**
- **Up to 60% smaller* and 70% lighter than other chargers for easy portability**
- **Powers and charges virtually all notebook computers from any auto or airplane DC outlet**
- **70 watts - enough to power and charge virtually all standard-size notebooks**
- **Plugs into a cigarette lighter or Empower™ port for easy, on-the-go power**
- **Includes multiple charger tips for use with major-brand notebooks**
- **Provides the right power for iPods®, mobile phones, portable DVD players, PDA's etc when used with correct tip****
- **Free iPod® tip available**

Power it

* by volume ** certain tips available separately
