

## Computer System Security Products

### Protect Your System!

When you're not at your desk your valuable data and equipment are at risk. It only takes a moment to slip in a disk and download information, or add a crippling virus. With a few moments more, a thief can open the computer casing—exposing your memory, hard drive, and other internal components. Or they may simply pick up the equipment and walk away. Lunch hour or after hours, you need protection. Kensington's line of five new security products offers the fastest way to safeguard all your data and hardware.

### FloppyLock™

FloppyLock protects your drive from unauthorized access for complete data security.

- Data protection in any office environment
- Stops unauthorized individuals from downloading information
- Helps prevent the introduction of viruses

*Stop data theft with FloppyLock!*

- Compatible with virtually all 3.5" PC drives
- Also compatible with Kensington Notebook MicroSaver®
- Patented design; durable construction

FloppyLock is not designed to work with LS 120 drives.  
62694 FloppyLock (4 language package)

### CableLock™

The simple but effective security device designed to protect your favorite computer accessories.

- Locks your mouse, keyboard, speakers, and more without interfering with their use
- Easy to install—no glue or hardware!
- Each CableLock protects two peripherals
- Use with Kensington Desktop MicroSaver® (not included)

62698 CableLock (4 languages)

*Prevent someone from stealing your mouse, keyboard, speakers, and more with CableLock!*

### MemoryLock™

MemoryLock effectively blocks access to the inside of your computer.

- The hard drive, memory, and all your important information is protected
- Compatible with Kensington Desktop MicroSaver® and Notebook MicroSaver®
- Patented design; tough, all-metal construction

62692 MemoryLock (4 language package)

*Stop hard drive and memory theft with MemoryLock.*

## Z Lock™

Can you afford to lose 100 MB of data in a few moments? Lock your Iomega Zip™ drive external with Kensington's Z Lock.

- Prevents access to the zip drive
- Stops unauthorized individuals from downloading information

*Unprotected Zip® drive? Zip it up with Z Lock.*

- Prevents the introduction of dangerous viruses
- Compatible with Kensington Notebook MicroSaver®
- Patented design; durable construction

61695 Z Lock (4 language package)

## MemoryLock™ with Cable

Get complete computer security in every office setting with MemoryLock with Cable.

- Combines the advantages of MemoryLock™ and Desktop MicroSaver® to protect your computer, hard drive, and memory
- Prevents access to the inside of your computer in addition to protecting all your equipment from theft
- Secures up to three pieces of office equipment
- Includes 1 MemoryLock, 2 low-profile security plates, 1 six-foot steel cable, and super bond glue.

*MemoryLock with Cable provides complete protection for your computer and memory.*

62696 MemoryLock with Cable (6 language package)
