Notes on compatibility:

1. Not all of Socket's products have been testing on each of these units to verify full functionality/compatibility. This matrix has been prepared with information gathered off of certain OEM partner websites. However, in the event that it contains omissions, errors or any other misinformation, please feel free to contact Socket Communications. Please be aware that the information described in this document may change without notice. N/A means that OS is not available on that device.
2. HP iPAQ h395x PPC 2002 ROM 2.10 required ([Click here](#) to download)
3. HP iPAQ h397x PPC 2002 ROM 1.11 required ([Click here](#) to download)
4. HP iPAQ h545x PPC 2002 ROM 1.11.xx required ([Click here](#) to download)
5. The Samsung i700 is a Pocket PC Phone Edition product offered through Verizon Wireless.
6. ViewSonic V35 and V37 PPC 2003 ROM upgrade required ([Click here](#) to download)
7. Certain Pocket PC Models have SD or SDIO slots but are not compatible with Socket's SDIO cards. These include:
 - a. Dell Axim X5 - This unit has an SD slot that supports memory cards only and does not support SDIO.
 - b. Toshiba e330/350, e550, e740/750/755 - These units have SDIO slots but do not have SDIO Now! software from BSQUARE.
 - c. The HP iPAQ h1910/1915/1920 - These units have SD slots that work with memory cards only and do not support SDIO.
8. HP iPAQ h1930/1935/1937, h1940/1945 and h2210/2215 series SDIO slots exhibit interface characteristics that may prevent the normal operation of certain Socket products. For more information on the 19xx series, please [Click here](#). For more information on the 22xx series [Click here](#).
9. The Hitachi G1000 is a Pocket PC Phone Edition product offered through Sprint but at this time only supports SD memory cards.
